

Thermocouple boulon fondu hlicodal IEC - Type K, J

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

Specifications

| | |
|----------------------------|---|
| General Description | Rotational blade style tip allowing correct positioning for reduced resistance in the melt flow |
| Sensor Type | Widely used in plastics extruders and injection moulders |
| Thermocouple Type | K or J |
| Probe Length | 152mm stem length |
| Sheath Material | Stainless steel bolt with 1/2"UNF-20 2A thread |
| Termination Type | Standard plug termination (round pin) |
| Max. Temperature | +400°C |
| Tolerance | Tolerance & colour code in accordance with IEC-584 specification |
| Thread | 1/2"UNF-20 2A thread |
| Tip | 20mm long blade tip immersion length |
